

Courses prepared in PowerPoint/Audio format are easier to learn from because they utilize both your visual and auditory senses. This type of presentation allows you to have a learning experience almost exactly as if it were presented in a classroom. You will see and hear the material explained just as you would in a classroom, with the added advantage that if you missed a point, it's easy to rewind the presentation and see and hear it again, as often as necessary for you to clearly understand what is being taught.

Topics include:

- Property Ownership
- Land Use Controls and Regulations
- Valuation and Market Analysis
- Financing
- Laws of Agency
- Mandated Disclosures
- Contracts
- Transfer of Property
- Practice of Real Estate
- Real Estate Math
- Louisiana Laws, Rules and Regulations
