

National Exam Prep Course for your licensing exam

A Message for all students who have completed the 90 Hour Real Estate PreLicensing Course.

To schedule the exam prep course, e-mail StudentServices@ProEducate.com at least one (1) business day before you would like to begin the exam, stating the day you wish to begin.

The Louisiana Real Estate pre-licensing examination is known to be a challenging exam. Considering the serious consequences that result from failing an exam, it becomes extremely important for potential licensees to be certain that they are well prepared for testing. To assist you in that regard, ProEducate is offering our graduates an opportunity to test their knowledge of the topical areas addressed by the exam by making available a set of practice examinations. Additionally, this course contains the “Real Estate License Exam Prep” e-book, as well as a cram review. The questions are taken from a large pool of examination questions from a variety of topical areas. As a ProEducate graduate, you will have available to you 11 sets of 40 different questions at no cost. These questions cover a broad range of topics you are likely to encounter on the national portion of the licensing examination. Each question is in multiple choice format, like the actual licensing exam. At the end of the 40 question exams, you can review all of the questions and their answers.

While working with these exams, please keep in mind that working on an assessment at home is not the same as taking the test at the testing center. Studies show that no matter how relaxed and prepared you feel going to the test center, you are likely to score lower at the test center than at home. So, please allow for the fact that you are going to lose a number of points at the actual test. A score of 75-80 on the practice test does not mean you are ready for the licensing exam. You should aim for a score on the 11 exams of not less than 85%. A score below that would suggest you need more preparation before attempting the licensing examination

After you complete the 90 hour course, you may schedule your Exam Prep Course at no cost by simply sending an e-mail to StudentServices@ProEducate.com (**phone calls will not be accepted**) at least one (1) business day before you would like to begin stating the date you want to begin working with the exams. You will have two weeks to complete the Exam Prep Course. We recommend that you start with exam #1, then study the areas where you did not score well, then attempt the second exam, and so on.

These exams are available free of charge to any of our 90 hour pre-licensing graduates who schedule the exams by e-mail within 45 days of course completion. Once the exams are scheduled, we cannot reset, reschedule, or extend the 14 days.

We wish you success on the examination, as well as in your new career.
